

Create a Shortcut to Royal's Web Order System Android Smartphones & Tablets

Note: These instructions may need to be adapted to your particular Android device. The locations of commands and buttons may differ.

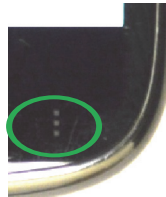

1. Open a web browser and go to www.RoyalFoodService.com. Tap "Place An Order" at the top right.

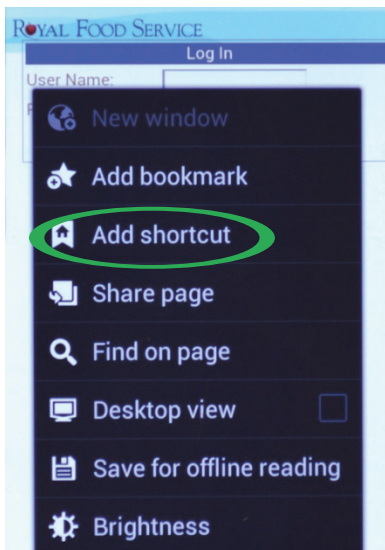

2. Enter your User Name and Password.

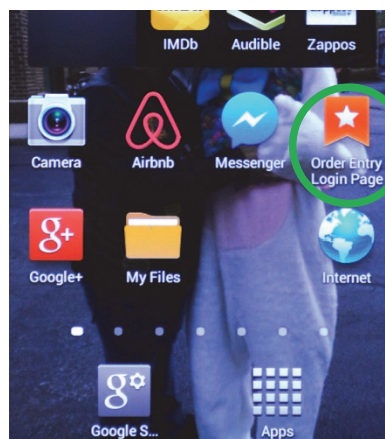

3. Tap the Additional Options icon (usually shown as three vertical dots. See below.).

4. Now tap on "Add shortcut" and save it to your Home screen (or a different screen if you prefer). Log out of the Web Order System before proceeding to Step 5 below.

5. From the Home screen (or wherever you saved the shortcut), tap on the Shortcut to jump to Royal's Web Order System.

6. Your login information should already be entered from the last login. Tap "Log In".
